RE: SOUTH DAYTON DUMP
MONTGOMERY COUNTY
DRAFT SSI REPORT
USEPA ID# OHD980611388

Ms. Jeanne Griffin
Site Assessment Section
Office of Superfund
USEPA, Region 5
230 South Dearborn Street
Chicago, Illinois 60604

Dear Ms. Griffin:

Ohio EPA has received and reviewed the FIT-prepared Draft Screening Site Inspection Report (dated July 9, 1991) for the South Dayton Dump site located in Dayton, Montgomery County, Ohio.

The agency has one comment concerning the report. Please provide the rationale for the deletion of the two sediment samples specified by the SSI workplan. According to the workplan, a total of thirteen samples, eleven soil and two sediment samples, were to be taken. The SSI workplan does indicate that the location of the samples were subject to change based on field conditions. However, the workplan does not indicate that the two sediment samples were to be taken conditionally, based on the findings of the site reconnaissance inspection.

Ohio EPA appreciates the opportunity to review and comment on this document and looks forward to seeing a revised copy of the SSI report which incorporates our concerns.

Please contact me at (513) 285-6058 if you have any questions or wish to discuss the above comment in more detail.

Sincerely,

Ali M. Moazed
Division of Emergency and Remedial Response
